

GTS 23 / GTS 24

- Optimized wet performance, increased contact area between ground and tyre and special contour derived from motorcycle sport-touring tyre to provide high-speed stability, outstanding cornering behaviour and excellent handling
- Higher mileage, even wear, excellent riding comfort and rolling noise reduction thanks to the new compound and tread pattern design
- Two sizes with 0° steel radial technology to improve the high-speed stability, handling and steering precision
- The first choice of many maxi-scooter manufacturers
